PRESS RELEASE

Bayard Management Group, LLC Conducts Compensation Study for Lafourche Parish Government

New Orleans, June 2013

At the request of the Parish President, the Bayard Management Group has been hired to perform a compensation study of the Lafourche Parish Government.

The plan will provide salary and wage comparisons, an analysis of employee job functions, as well as a review of Parish compensation policies and procedures.

“Employers are facing challenges recruiting and retaining talent, especially government agencies, and therefore examining salary and wage competitiveness allows employers to make short and long term hiring and wage decisions in a more strategic manner,” said company President/CEO Dr. James Gilmore.
